

*Conception was easy. Labor was arduous.*

*But, thanks to modern science, it was all worth it!*

### Bluebonnet proudly welcomes Early Promise Prenatal™ Triplex Care System

Instead of ten perfect little fingers and toes, our “baby” has three perfect, science-based formulas that offer pregnant and nursing women the most comprehensive, health-supporting prenatal nutrition on the market today.

Like all good expectant parents, we poured over the latest nutritional science. After hard labor, we delivered triplets: A three-step daily regimen providing unrivaled nutrition and antioxidant protection – in the precise potencies recommended from conception to beyond baby’s first crawl.

Early Promise Prenatal™ has separate vitamin and mineral complexes – bundled in a convenient dual pack – for superior utilization, and a delicious natural vanilla or

chocolate Macronutrient Dietary Supplement Powder that together supply essential vitamins, minerals and antioxidants. It’s the only prenatal system with both DHA and high-potency fruit and vegetable antioxidants – plus high-quality proteins, complex carbohydrates, and healthy essential fats to add the nutritious calories pregnant and nursing women must consume daily.

Early Promise Prenatal™ Triplex Care System. It’s a little bundle of nutritional joy that also happens to be a miracle of modern science.

  
**Bluebonnet**  
NUTRITION TO THE FIFTH POWER  
NATURE · SCIENCE · QUALITY · TRUTH · KNOWLEDGE
