

A Real Soy Protein Boost With A Helping Hand...or Two From Mother Earth

Bluebonnet's new Super Earth® soy protein powder is the only soy protein formula on the market with an added boost from Mother Earth's most potent phytonutrients. This vegetarian formula is the first, high-quality, non-GMO soy protein with standardized soy isoflavones AND specific amounts of potent, complementary, plant-based nutrients — flax lignans, fruit polyphenols and oat beta-glucans.

This unique phytonutrient soy protein formula includes specific standardized ingredients that play a synergistic and complementary role in maintaining optimal health for both men and women by:

- Offering powerful antioxidant protection to help support cardiovascular health† (*Soy Isoflavones, Fruit Polyphenols and Oat Beta-Glucans*)
- Serving as phytoestrogens to help support the health of menopausal women and

men's prostate health† (*Soy Isoflavones, Soy Saponins and Flax Lignans*)

- Helping to support bone health† (*Soy Protein, Soy Isoflavones and Flax Lignans*)

In fact, the two great-tasting, instant-mixing flavors, **Natural Toasted French Vanilla** and **Natural Chocolate Truffle**, are so naturally good for you, even the sweetener, EarthSweet™, is loaded with potent phytonutrients and antioxidants instead of commonly used artificial sugars and flavors.

So if your soy protein category needs a helping hand, let Bluebonnet's Super Earth® Phytonutrient soy protein powder give it a boost. Because being first and being the natural best is the power of science and nature. Both of which are powers of Bluebonnet Nutrition.

Available in fine natural food stores
